

Real Life Canines: Video Coaching Info

I'm looking forward to our video call and learning about your dog!

In order to make sure you get the most out of it, it's beneficial for me to have as much detail as possible to give you the most accurate answers so my recommendations will be effective. Whether it is something in a training session for obedience or a real life situation that is behaviour related, film it.

Please keep videos between 3 and 5 minutes. Once you film it, upload it to Youtube and set the visibility to “**unlisted**”. When your video is up, you can send the link to reallifecanines@gmail.com .

Calls are done over **Google Meet**

I also need to know about you, your dog and more. What I need to know is:

- Dog's age
- Male or female
- Fixed or not
- Breed
- History
 - Have you had them since a puppy or adopted as an adult
 - How long have you had the dog
 - Have you done any previous training, even DIY training
 - Dog parks or daycare?
 - Fights with other dogs?
 - Bite history?
- Behaviour issues
 - Reactivity- to dogs? People? Cars? Bikes?
 - Fearful or anxious? Specific triggers?
 - Resource guarding
- Obedience issues
- Daily life- what is your routine and structure like with the dog?
